Hinged Security Door Hardware

Whitco
SECURING YOUR HOME

10 YEAR MECHANICAL WARRANTY

whitco.com.au
Tasman™ Mk3

Application / Description
Single or Multi point hinged security or screen door lock.

Features and Specifications

DUALSELECT
- DualSelect offers safety and security for all occupants by giving a choice of selecting privacy-lock or deadlock when exiting the home. Turning the key to the first selection engages the privacy-lock, which offers security from the outside whilst allowing occupants inside to safely exit using the internal privacy snib. The second selection engages the deadlock, which provides security, but requires the key to unlock the door from inside and outside.
- Internal padlock symbol denotes door is in deadlock mode.
- Contemporary styled furniture with pre-assembled handles and snib.
- Patented anti-jemmy extra wide serrated locking bolt.

SECURITY
- High performance lock meets or exceeds relevant requirements of Australian Standard AS 4145.2-2008 to Level S7 and D8.
- Patentable features for centre and auxiliary locks.
- Fits industry standard cut outs.
- Retrofits previous Whitco Tasman lock.
- Zinc diecast lock mechanism and furniture.
- Easy installation.
- Suits either left or right hand opening hinged security and screen doors.
- Mortice lock with inside snib.
- Key overrides snib.
- Automatic latching.
- Accepts Whitco Euro profile lazy cam cylinder locks.
- Suit standard 20 mm door thickness.
- Stainless steel strikes.

DURABILITY
- Use with Whitco Euro profile lazy cam cylinder locks.
- 2 x 5 pin cylinder.
- 2 x 10 disc cylinder.

Keying

Available in Display Pack only.
